Tran Nao Street , An Khanh Ward, 2 District, Ho Chi Minh City

SUMMARY

- I'm a person have 6 month experience in JavaScript (in game development) as a front-end developer , I like coding, create products
- My knowledge: HTML5/pug, CSS, Less, JavaScript, Bootstrap, Ant design, Responsive Web, ReactJS, Git, jQuery, webpack, PWA
- As a student with current GPA above 7 and in one of the top IT universities, I am confident in my knowledge of OOP, data structures and algorithms, SQL database which I learned in my university.
- During my university studies, I had many small projects with my colleagues and also had my own project on web development (available on my GitHub). Recently, I and a friend of mine have developed a "Time management extension" for users on the Google Chrome Store and I am quite interested in this project.
- My favorite website to learn programming is Freecodecamp.org, leetcode.com,... I am quite confident in my English reading and listening skills. I value self-study, I like science, love to learn English.

TECHNICAL SKILLS

Web Developer

HTML & CSS	<div></div>
Bootstrap	<div></div>
jQuery	<div></div>
TypeScript	<div></div>
JavaScript	<div></div>
ReactJS	<div></div>
Git	<div></div>

EDUCATION

University of Information Technology – Ho Chi Minh National University | 09/2018 - Present

Major: Information Technology

Toeic LR: 765/990

PROJECTS

Project: Delivery

Time: 2 months

Description:

- Fast Delivery provides users with features such as:
 - Register for shipments, estimate costs, manage orders, manage data from admin side,...
- Map to help users look up the post office's location
- Technology: HTML, CSS, JavaScript, Bootstrap, ReactJS, NodeJS
- Features designed by me:
 - + Home page with responsive, Signup and Login page
 - + Estimate the costs
 - + Tracking order status, display and interact with the map

Project: Deep Focus Extension

Time: One week
